TRAIN CREW ROLLS DOWN MOUNTAIN SIDE IN ENGINE CAB

Another United Verde Locomotive Tumbles.

MEN BAVE MIRACULOUS **ESCAPE FROM TERRIBLE DEATH**

That Enginee: John Hawkins and Fireman Robinson, of the United Verde railroad, are now alive is one of the miraculous features attending the capsizing of their engine Saturday

The Prescott Journal-Miner thus describes the accident: The train was heading toward Jerome, and was at a point known as Bridge No. 17, near Horseshoe Bend, when the engine left the rails and tumbled over on the side of the track next to the embenkment Haskins was severely bruised, but was not seriously injured, and did not even have a broken bone to show for his

thrilling experience.

Robinson was on the side of the calthat fell toward the upper side. He was pinned under the engine, but managed to crawl out of a space barely large enough, it is said, for a jack rabbit. He emerged from the hole a badly scared man, and was amozed to find that he had not been injured in

Two flat cars and a coke car also were derailed, but no damage occurred. Word was wired to Jerome from a signal box, and a special train left that point for the scene of the acci-dent, the expectation being that there had been a great disaster. The train men on the special were greatly relieved upon finding that matters had turned out so fortunately.

After some work, the track

cleared, and the afternoon train for the junction pulled out on schedule time, and it returned in the evening without any delay occurring.

The Haskins family seems to have

been born under a lucky star, for the brother of John, who is also an engineer, rolled down the canyon a few years ago with his engine, and escaped with his life.

TO TRY NEW COUPLER.

Invention of Charles Botkin Will Be Tested by Santa Fe.

J. E. Hurley, general manager the Santa Fe, has arranged to have samples made of a new coupler which has been invented by Charles B. Bot-kin, of Osage City, Kansas. Letter-patent have been granted Mr. Botkin on this coupler by the United States and Canada. It is expected that the coupler will prove a great success. It is simple in all respects and is not but dened with the many and dangerous complications found on similar de-vices, says the Topeka Journal.

It is the intention of Mr. Hurley, after the sample couplers are made, to put them on some of the engines used in the Topeka yards, and thereby give them the most severe test that can b imagined. In yard work the ne coupler will come in contact with all sorts of couplers and its efficiency un-der all conditions will be tested thor-

Hurley and the officers of the me chanical department of the Santa Fe as well as Inventor Botkin are san-guine that they will be, the coupler will be adopted immediately by the Santa Fe. Mr. Botkin, the patentee is not a stranger to Topeka. He worked in the Santa Fe shops her until five years ago when he went to Osage City. He has been working of the coupler for a long time and it w only a few days ago he received the patents on it. If it is a success, and there is no reason to believe that i will not be, Mr. Botkin will make big fortune, as all the railroads in the country are on the lookout for a sim ple coupler that will do the required

OIL RESERVOIR AT NEEDLES. Considered Dangerous to Use Tanks

Santa Fe Yards There. Santa Fe engineers are at Needles Cal., this week making surveys for the purpose of drawing plans for a new oil reservoir, which will have a capacity of fity thousand barrels. It is proposed to locate this reservoir at a sufficient distance west of the city as as to give it gravity delivery to the shops and engine supply tanks in the

At the present time the oil needed for the engines on this division is stored in tanks in the yards and it is considered that this is dangerous be cause of the great quantity of sparks from engines which are continually flying about.

Some Sensible Advice.

It, may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chainberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory - results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesany other. It is for sale by all-drug-

Wilkerson appearing as his attorney. Pierce asked for a con-tinuance until Wednesday morning, which was granted. The hearing will be had Wednesday morning at 3 o'-clock before Judge Crawford.

ARIZONA ROUND-UP A SAD SAD SCENE

OLD TIMER HAS NO PATIENCE WITH LADYLIKE PRESCOTT METHODS.

The round-up in the Oro Bianco ountry last week looked not unlike a uneral procession, says the Nogales It was tame. Even the horses consists. It was tame. Even the horses thew there was something wrong and went about their work in a lack-spirit nanner. The cheery "Hello, Bill! How's she going?" was changed to "Good morning William. How are you this morning?" Occasionally an outlaw cayuse would toss his head, look at the peaceful looking travelers and throw a great loud horse laugh and throw a great loud horse laugh Men who for years had ridden the ranges with all the dash of centaurs and with defiance flashing from their sad les as mutton-chopped Britishers are with faces more solemn. Truly, the hange from the old rough-and-ready happy-go-lucky bunch was great. It ould have been hardly greater. There were no guns in the party. The edict and gone forth that roundups would creafter be regarded as public gath-ings and the laws of Arizona (malelctions on the meddlers that framed hem, mutters Riata Rube) forbid the igs. Rangers Olds and Coffee of No iles visited the round-up gang during he week and found the atmosphere to gloomy and oppressive that they ere back in town three days before a heerful expression returned to their

After the War.

Now that peace has been declared etween Japan and Russia the entire world will have something serious to hink about in regard to the strength of the Japanese. In fact, a command ag nation has sprung fato being, witwhich the powers must reckon in the uture. If you neglect the stomach and bowels and allow the system to secome weak and rundown, Nature dways requires a reckoning, and which in some cases results in a long, erious sick spell. You cannot afford take chances and for this reason we arge you to commence takingsHostet er's Stomach Bitters at meal time an hed time, and give it a fair chance to make you well again. Thousands have been cured during the last fifty years of indigestion, dyspepsia, heart urn, costiveness, bloating, sour stom ich, female ills or malaria by usin the Bitters promptly. Start today.

My Dear Sir: Your letter, with notice, has just reached me. I was aware from my policy, that L would be entitled to a "dividend" at this time, but I had no knowledge upon which to base an opinion as to the amount of the dividend. I certainly did not expect that it would be anywhere near the amount you mention (\$24.15 cash). This is nearly one-eighth of my annual premium, \$204.50. I are more than pleased with this showing. I inclose herewith check for \$204.50. The present dividued, and subsequent ones-unless otherwise instructedwill be left to purchase additional insurance. You know we have to protect the wife and babies, even if we have to go without a vacation ourself.

I hope to have the pleasure of meeting you here soon. Very sincerely, W. V. WHITMORE.

WOULD YOU LIKE TO HAVE A POLICY LIKE THE ABOVE? WE HAVE A FEW MORE LEFT. FOR FULL PARTICULARS WRITE

HE FALL CAMPAIGN IS FAIRLY ON. Our well chosen stocks signal their readiness to serve the people better than they have ever been served before. The exhibit embraces the richest, best and brightest styles that were ever produced-as yell as the conservative and less costly creations for ordinary use. Being leaders we are not working on theories-nor inflating balloons with gaseous advertisements. The people want the facts. They want the proper stocks-in the proper styles-in the proper variety-at the proper prices-all of which we give them acre. No words can convey more than an imperfect idea of the procession of style and elegance-artistic creations and matchless values passing from our counters to consumers day by day. This is the result of accumulated knowledge of years of experience
